CSCI 2540 Assignment 8

Due date: Tuesday, April 11 (before class)

Problem:

Textbook "Data Abstraction & Problem Solving with Java" (3e), p451, Chapter 8, Problem 8, which is to implement the event-driven simulation problem discussed in Chapter 8.

Please use input.txt as the input file name.

Submission instructions:

To submit your programs, you need to submit your programs electronically on Blackboard. Please also bring a hard copy of your programs to the class to submit.

Make sure you put all your source code files (and only source code files) in one package and name the package as assg8_Yourlastname. When you submit your files to Blackboard, please submit your package folder (with source code only, i.e., .java files) as one zip file.
